## Full Stack Web Developer

### PROFESSIONAL SUMMARY

Proficient Full Stack Web Developer skilled in the MERN stack, known for leveraging Generative AI to innovate within tight timelines. Demonstrates expertise in JavaScript, React.js, Node.js, and Express.js, with a strong ability to craft seamless, scalable web applications. Excels in problem-solving and collaborative environments.

### PROJECTS

#### 1. Nykaa Clone | |

JavaScript | CSS3 | HTML5 | Git

- Developed a responsive design ensuring a seamless experience across desktop and mobile platforms.
- Implemented an admin dashboard allowing CRUD operations for product management.
- Integrated interactive product showcases and user-friendly navigation for enhanced user experience.
- Utilized JavaScript, HTML5, and CSS3 in a team collaboration, gaining experience in front-end and Git version control.

#### 2. OS Simulation | |

JavaScript | HTML5 | CSS3

- Collaborated with a team to develop a responsive and animated UI for OS selection using JavaScript, HTML5, and CSS3.
- Implemented dynamic routing functionality to switch between different OS environments within the application.
- Developed both GUI and terminal-based interfaces for user interaction, enhancing usability and flexibility.
- Participated in team discussions and contributed ideas for improving the design and functionality of the application.
